THE NEW YORK
MUSICAL REVIEW AND GAZETTE MUSICAL REVIEW AND GAZETTE,
COMMENCES its Seventh Year, and a New Volume,
In January, 1856. In calling attention to the Review, its publishers believe they can present to the public no more satisfactory evidence of its excellence as a musical journal than is afforded in its constantly increasing success. It has now about three times as large a circulation as any other musical periodical in the world. Its receipts from subscribers during the last six months have been more than double those for the corresponding period of the year previous. By such flattering marks of approval, the publishers are incited to increased enterprise and exertion to add to the excellence of the Review. Prizes amounting to three hundred dollars were recently offered by them for songs for its pages. Of the vast number sent in to compete for these prizes, the best were selected by a competent committee, and are now in course of publication in the fleview. When their publication is completed, the subscribers to the Raview will decide by ballot which shall receive the prizes.

Besides a large amount of reading matter, including regular correspondence from the leading cities in the world, each number contains several pages of new music. A series of articles on Music Teaching, by Dr. Lowell, Mason, is now in progress of publication. Another, by Geo. F. Roory, Esq., on Cultivation of the Voice, Vocat Training, &c., will be commenced in the beginning of the new volume, as spell as one by Ww. B. Kalburgy, Req., on the Improvement of Church Music.

The topic bids fair to increase momentarily in interest. We find that the immediate partizons of Senator Douglas consider him a candidate for the Cincinnati nomination, notwithstanding the disclaimer on his own part he bas taken occasion to cause to be published. The truth is, they probably feel that he has no right to have a will of his own on such a point, the office being one that should not be sought or declined by an aspirant, in person. Had the Cincinnatians been content to let the road remain as it was in the beginning of the enterprise, under the charge of an Indiana President, it might now have been finished, and that too at a saving of some ten millions of dollars.

We learn, by the by, from a leading and distinguished Ohio Democrat, that the State delegates elected to the Cincinnati Convention by the Ohio State Convention are uninstructed and unpledged, and that no question, as to their personal preferences, was allowed to enter into the solution of the question as to the individuals to be chosen, whose views on gation closed with a view of getting him released on bail. Mrs. R. was again placed upon the witness-stand and again gave a minute detail of all the circumstances of the case. Here she was subjected to the severest ordeal of cross-examination through which any witness ever passed in a court in this country—extending through some two or three days. An effort is certainly being made here to induce the Republican party leaders to discountenance efforts to make a nomination of some one standing on their platform, against Mr. Crittenden. This movement, by the by, is rather on the part of lukewarm Republicans than on the part of Mr. C.'s immediate friends and supporters, who are too sagacious men, we take it, to entertain the idea that they can be supported by the Republicans without giving pledges which will strip him of the old Line Whigs, but a respectable portion of the Fusionists, fully coincide with the views presented on the Kansas question in the colwe take it, to entertain the idea that they them that Riggen died of poison, (arsenic;) can be supported by the Republicans without giving pledges which will strip him of the support of every man who honestly favors cured an additional quantity a day or two be-

Not wishing to compromise the interests of the road, I tendered my resignation to the board. In accepting which, they did me the honor to pass the following preamble and resolutions:
